

PRT Test Track is located in Kurikka in the area of Botniaring Motor Race Track. The company hires special coated tracks for driver training courses under slippery conditions and for vehicle testing. Auxiliary supporting services are as well available. The location of the test tracks facilitates also utilizing the long race track for making vehicle tests and driver training. PRT Test Track has the first ABS test track in the Nordic Countries for vehicle testing. Special effort during planning phase has been put on safety and environment-friendly structure. The safe areas of the tracks have been planned in the first hand taking into account heavy vehicles. The slipperiness on the special coated tracks is produced using water irrigation only.
